If the book or item you need isn’t available through the Galvin Library or any I-Share libraries, follow these directions.

1. Locate the WorldCat catalog.
   Use the “Get Books from Libraries Around the World” link, found under the FIND BOOKS tab, then click on the gray WEBSITE button.

2. Find your item.
   Enter information for the item you’re looking for. You can search by many different fields, such as the ISBN number or the title. After you enter criteria, click Search.
   Please note that textbooks cannot be requested via WorldCat.

3. Request materials.
   Click on the title of the item that you’d like. You will see a “MyILL” icon that you can select to request your item. Log in to your MyILL account (or create a new account if you don’t have one) to complete the request.
   You will receive an email when your item is ready to pick up. Note that items requested through WorldCat often have shorter loan periods and have stricter renewal policies than items obtained through I-Share, so check that catalog first!

Questions? Email the Research Help Office at rho@iit.edu or call 312-567-3616.
